### **WORK EXPERIENCE:**

#### ***Software QA Engineer at DASH Financial Technologies / Jersey City, NJ***

03/2022 – Present

- Led comprehensive testing (Smoke, Functional, Integration, Regression) in UAT and DEV environments to fortify software quality.
- Developed and executed test plans, cases, and scripts, identifying, and resolving software bugs with precision.
- Automated test cases with Python, reducing testing time by 35% and enhancing overall efficiency.
- Collaborated cross-functionally, ensuring seamless deployment of new features and updates, streamlining development.
- Proficient in Agile methodology, delivering exemplary client support, and conducting efficient database and server testing.

#### ***Data Analyst at SCOUTFY / São Paulo, Brazil***

04/2021 – 03/2022

- Conducted extensive data mining within the global sports ecosystem, strategically collecting pertinent data for analysis.
- Applied advanced web scraping techniques using Selenium, BeautifulSoup, and Scrapy to extract valuable information from Web App UI, ensuring thorough data acquisition.
- Proficiently performed Data Extraction from Web and Cloud systems using ETL (Extract, Transform, Load) processes.
- Implemented meticulous Data Transformation techniques, including the removal of duplicates and null values, to ensure data integrity and accuracy.
- Executed seamless data loading into CSV and JSON file formats, facilitating efficient data storage and retrieval processes.

#### ***Capital Markets Virtual Internship via Forage Platform with Boston Consulting Group***

12/2019 – 03/2021

- Demonstrated a profound comprehension of the diverse markets in which investments are traded, discerning key nuances between various market types.
- Distinguished and comprehensively understood the regulatory frameworks set forth by different US regulatory agencies governing the stock market.
- Exhibited an in-depth understanding of the distinct offerings provided by various brokerage entities, showcasing expertise in brokerage services.
- Leveraged knowledge to differentiate between municipal bonds and corporate bonds, presenting insightful investment options to stakeholders.
- Applied strategic insight to navigate arbitrage opportunities in the foreign exchange market, contributing to effective risk management and financial optimization.
- Displayed analytical acumen in comprehending the multifaceted factors influencing commodities pricing, enhancing decision-making processes within the investment landscape.
